

REPUBLIC SERVICES, INC.

Dear Crestwood Residents,

During the Spring of 2014, we will be delivering to the homeowners of the Village of Crestwood a new 95 gallon toter for their recyclables.

We do however realize that this size toter may not work for every family. We also realize that as your recycling volume increases your trash volume will decrease. When we deliver these toters there will be a package of information attached to the new toters that will give instructions if you need to change the size of either the existing trash or the new recycling toter.

Recycling service for homeowners will be provided on an every other week basis, the every other week maps and service information will be attached to the toters at delivery, and will be posted on the Village of Crestwood web site when it is available.

The materials that you will be able to recycle are...

ACCEPTABLE RECYCLING ITEMS

| | |
|-----------------|--------------------|
| Magazines | LDPE Plastics |
| Newspaper | Glass |
| Cardboard | Aluminum & Tin |
| Chipboard | Bi-metal materials |
| Office Paper | PET Plastics |
| Telephone Books | HDPE Plastics |

PLEASE NOTE: *The 95-gallon carts for recycling should not contain yard waste or trash.*

Acceptable items on this list will continue to change as commodity markets change. We will keep you informed as changes occur.

Please understand that no other areas of your service will be changing.

Your existing service day will remain the same...the Holiday Service schedule will remain the same, and the spring bulk pick will also remain the same.

For those residents that live in multi-unit condo or apt buildings we will have drop boxes at various locations for you to place your recyclables. The first drop boxes will be delivered to the Village Rec Center and the Civic Center on Oct 1st.

We appreciate the opportunity to service the residents of Crestwood.
